

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Escuela Popular/CTC Family Learning Center

CDS Code: 43694270107151

School Year: 2023-24

LEA contact information:

Patricia L Reguerin

Executive Director

patricia@escuelapopular.org

408-426-6593

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2023-24 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue Escuela Popular/CTC Family Learning Center expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Escuela Popular/CTC Family Learning Center is \$11,362,913, of which \$9,538,230.00 is Local Control Funding Formula (LCFF), \$1,623,589.00 is other state funds, \$201,094.00 is local funds, and \$ is federal funds. Of the \$9,538,230.00 in LCFF Funds, \$2,623,713.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Escuela Popular/CTC Family Learning Center plans to spend for 2023-24. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Escuela Popular/CTC Family Learning Center plans to spend \$9,114,299.00 for the 2023-24 school year. Of that amount, \$2,365,602.00 is tied to actions/services in the LCAP and \$6,748,697 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

The Local Control and Accountability Plan does not include the salaries of all our teaching staff, support staff, administrators, services and operating expenses, and facilities costs, which represent the majority of the differences between the General Fund Budget and the total budgeted in the Local Control and Accountability Plan (LCAP).

Increased or Improved Services for High Needs Students in the LCAP for the 2023-24 School Year

In 2023-24, Escuela Popular/CTC Family Learning Center is projecting it will receive \$2,623,713.00 based on the enrollment of foster youth, English learner, and low-income students. Escuela Popular/CTC Family Learning Center must describe how it intends to increase or improve services for high needs students in the LCAP. Escuela Popular/CTC Family Learning Center plans to spend \$2,365,602.00 towards meeting this requirement, as described in the LCAP.

Our LCAP actions and services does not include all the supports and services we provide our high needs students. This includes access to: highly qualified bilingual staff, maintaining small class sizes, support to graduating Seniors transitioning to college and career goals, and support through our Student Services Department. Professional development on meeting EL student needs and use of technology and the development of tools and practices

supporting the physical, emotional and mental wellbeing of students and staff.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2022-23

This chart compares what Escuela Popular/CTC Family Learning Center budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Escuela Popular/CTC Family Learning Center estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2022-23, Escuela Popular/CTC Family Learning Center's LCAP budgeted \$1,296,077.00 for planned actions to increase or improve services for high needs students. Escuela Popular/CTC Family Learning Center actually spent \$2,285,954.00 for actions to increase or improve services for high needs students in 2022-23.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Escuela Popular/CTC Family Learning Center	Patricia L Reguerin Executive Director	patricia@escuelapopular.org 408-426-6593

Plan Summary [2023-24]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Escuela Popular del Pueblo (EP) is a family learning center that operates two interdependent charter schools: Escuela Popular Accelerated Family Learning Center serving Transitional Kindergarten through 12th grade and Escuela Popular/Center for Training and Careers Family Learning Center serving students over the age of 18 in grades 9th through 12th. Our student population is majority Latino, Spanish speaking with an average of over 70% born outside the United States. Both schools serve a significantly large concentration of immigrant students and English Learners. In recent years the schools have experienced an increase in the number of students migrating from Central America and South America and a decrease in the number of students migrating from Mexico. Over 80% of the students are eligible for the free & reduced cost lunch program or fall under the federal poverty guidelines.

Escuela Popular has been providing educational services to the San José, California community since 1986. Escuela Popular developed as a grassroots effort to serve the growing need for English classes. As demand grew, the curriculum of Escuela Popular expanded to include parent education, citizenship classes, history/civics, and after-school/youth programs, in addition to English classes. In May 2002, Escuela Popular was granted a charter by the East Side Union School District to operate a family learning center for TK-12 and adult learners seeking a high school diploma.

From the outset, our students' status in society and the resulting problems that they face have been central to our educational approach. Critical issues our students face include poverty, language isolation from the dominant culture, immigration issues resulting in insecurities, culture shock resulting in a feeling of disempowerment and dependency, life-threatening travel to the US resulting in trauma, family separation which is particularly hard on the youth, limited time due to work-life pressures, and frequently interrupted educational engagement.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Students have demonstrated positive growth in Lexile scores. Teachers use Lexile scores to plan their lessons, implement differentiated strategies, and provide additional support to students who struggle with reading. The use of platforms such as Newsela and ReadWorks has allowed students to have more opportunities to continue developing their reading skills.

Teachers continued collaborating to create common assessments and rubrics to monitor students' academic progress. The refinement of learning goals continues to be a primary goal for all departments. The school will continue providing training to address the academic needs of English learners and students with special needs.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

At the high school level, the math department reviewed teaching materials and recreated some of the materials for the math modules. The department reviewed and created different versions of common assessments in the math module program. Furthermore, additional tutorial videos were created for the beginning levels of the math module courses. We plan to restructure our math module program for the next academic year to differentiate assignments and assessments for students who struggle in math, students with special needs, and English learners.

We plan to conduct a root cause analysis at the beginning of the school year to identify areas of need. We also aim to provide our teachers with more collaborative opportunities to delve into assessment data analysis and more opportunities to attend internal and external professional development.

Another area in need of significant improvement is the progress of English learners in ELPAC, particularly high school students in 9th grade. The majority of students are in Level 1. To address this challenge, we adopted a new reading and writing curriculum that was piloted this year. The main purpose of this adoption was to increase the language development of our 9th-grade students by exposing them to more relevant and relatable reading and writing assignments. Teachers continued the refinement of learning goals, assessments, and common rubrics. Next year, we plan to create a professional development master plan to ensure teachers obtain the necessary training to implement the newly adopted program and also learn teaching strategies that support the learning of English learners across the content areas.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The HS science department finalized all course descriptions, scope, sequences, and all courses were A-G approved.

This academic year, 80% of high school teachers continued using Google Classroom and its integrated grade book as a system for students to keep track of their academic progress. Learning goals, objectives, and assignments are posted and shared with students via the Google Classroom platform. All high school departments have created common grading criteria by using rubrics for performance tasks and other major assignments. Students can track their progress and ask for support in any area of need via the Google Classroom platform.

Standards are aligned in all courses, and teachers are using different digital platforms and resources to enrich their classes and foster learning for all types of learners. This year, teachers participated in collaborative meetings to continue refining learning goals, common assessments, and rubrics.

Professional development has helped teachers to share and develop common teaching strategies. Teaching Learning Communities (TLC) has created a space for teachers to learn research-based instructional practices and strategies which teachers have been implementing in their classrooms and to receive feedback through peer classroom observations. Teachers have created action plans to apply TLC strategies to provide formative feedback to their students. These strategies have provided students with opportunities to receive written and oral feedback. This feedback enables students to reflect on their learning and allows teachers to adjust their lessons based on the data collected from formative assessments. We will continue with TLC next year and we will also include more professional development in the areas of ELD, math, science, and ELA. The SpEd department will also continue to offer training for teachers on differentiation.

Partnerships with other educational entities have exposed students to career exploration. This year, we partnered with San Jose City College to pilot a dual enrollment program. A cohort of high school students enrolled in child development courses that will help them obtain a certificate and transfer units to a college/university program. All students passed the two courses that we offered this year and will continue taking these courses in the upcoming academic year. In addition, Escuela Popular established a partnership with Teatro Nahuatl to offer theater classes for two consecutive years. This year, high school students had the opportunity to explore careers in theater as actors, music producers, and production designers.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Escuela Popular Center for Training Careers Family Learning Center

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Feedback from our educational partners and local data plays a pivotal role in Escuela Popular's decision-making. Based on feedback from our educational partners and local data, there was an area that was identified as a priority to support student's academic success this year. Unlike previous years, our students' math scores did not significantly improve across grade levels. This year, the math department dedicated their collaborative meetings to reviewing the math module program. The math module program helps students learn/review foundational math that will equip them with skills and knowledge to be successful in core math classes and therefore obtain the required credits students need to graduate. The math department reviewed and recreated instructional materials. More tutorial videos were created for the first levels of the math lab and math module levels. Tutorial videos are the main tool teachers use for the math module program and the math labs. Teachers reported that students did not have enough devices for all of their students. Also, the Chromebooks assigned to teachers do not have the capability to allow them to use certain apps, create more interactive projects and videos. In order to provide the necessary support to our students, the school decided to purchase more devices to ensure all students have access to the tutorial videos and other apps that are essential for students' learning. The school will also replace teacher's Chromebooks for Windows based computers which have more functional features. Teachers will be able to use digital assessments to provide immediate feedback to students and use a myriad of digital and online resources. The student devices will be shared with other departments to implement more technology in the classroom. An essential need for the acquisition of devices is to increase the level of collaboration among students and to have them work on creative and challenging projects that require the application of higher thinking skills. We want to create a more robust program that meets the requirements of the 21st Century Skills. Through the use of technology, students will be better prepared for college and the workforce.

In addition to the purchase of devices, The Principal, Instructional leader, and the math department leader will conduct a root cause analysis using the fishbone diagram. The Principal and Instructional leader will also gather data from local assessments and students' grades. This data will be analyzed during the math department meetings. Furthermore, the Principal and Instructional Leader will create an observation

tool to conduct classroom observations and collect data that will be shared with individual teachers. Common themes and trends will be shared with the entire math department. Once the problem has been identified, the Principal and the Instructional Leader will collaborate with the math department leader to create an action plan that will describe the type of support and training math teachers need to improve students' academic performance in math. The team will select effective evidence-based interventions, strategies and activities teachers will be implementing in their classrooms.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Escuela Popular will use the following methods to monitor and evaluate the effectiveness of the plan to support student and school improvement.

- The Facilities/Tech Department will distribute devices and collaborate with teachers to provide access to devices to all students. Tech support will be available for teachers that plan to implement technology in their classrooms. Teachers that are new to using technology will have additional support.
- The Principal and the Instructional Leader will review progress made in the implementation of the action plan. Data analysis will be conducted at the end of each assessment period and revisions of the plan will be made as needed. We will continue gathering feedback from teachers and collaborate with them to provide students with the support they need.
- The Principal and the Instructional Leader will create a system to capture all data gathered during classroom observations.
- The professional development for teachers will be included in the school's 2023-2024 Professional Development Collaboration Schedule and adjustments will be made based on areas of need.
- Student's grades and math progression will also be monitored regularly to ensure students are making progress to meet the requirements to obtain their high school diploma. Additional interventions will be implemented to support any students who are not demonstrating academic progress.

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Escuela Popular has communicated with its educational partners in their primary language and has provided opportunities to provide feedback in various ways such as online surveys, phone calls, home visits, Facebook, Google Classroom and Hangouts, and ParentSquare. We know that our engagement process with families takes time to build up trust and connection between families, students, and our staff. We have ongoing school-wide events during the year to foster open communication, active participation, and ways for our educational partners to learn about our school culture and facilitate dialogue.

The Principal along with the Instructional Leaders gathered information, reviewed assessment data and feedback from department heads, and met with teachers to determine progress made on the LCAP Actions & Services. Feedback was also collected at the SSC/ELAC meetings.

We completed our LCAP surveys during fall and spring where parents, students, and teachers provided feedback on our 12 priorities. The 12 Priorities are Relationships, Relevance, and Responsibility. For EPCTC 64% of students & for EPAFLC 73% of students & 79% of parents participated in the LCAP survey. Based on the feedback provided by the fall and spring surveys, we learned that families feel welcome and validated on campus. Additionally, during this process of data collection, parallel work is being done by the Student & Family Engagement Lead, Student & Family Services Coordinator, and the Student Resource Advocate to continue practicing engagement activities to identify students' needs and continue developing comprehensive services to those needs. After everyone had an opportunity to provide feedback, updates were made to ensure alignment with W.A.S.C., L.C.A.P., Early Literacy goals, and other plans.

A summary of the feedback provided by specific educational partners.

The feedback collected provided valuable information for the development of the 2023-24 LCAP. The following are the key takeaways from our educational partners' feedback:

- Adopt/implement different systems to understand and track students' academic progress toward mastery of learning goals. Google Classroom integrated grade book will be the official platform for high school students and the upper grades in the Dual Language program. Lower grades at the DL will use a system that can provide families with easy access to students' academic progress.
- Provide families with a variety of opportunities to learn about the dual immersion model.
- Administrators and instructional staff at the DL will also participate in professional development to learn more about the dual immersion model and learn new theories and best practices to serve our students better.
- Teaching Learning Communities (TLCs) fostered collaboration among teachers to increase students' academic growth.
- Increase support for instructional staff who is assigned to teach elective classes at the high school level.
- Teachers at both the DL and high school programs requested more professional development opportunities to learn how to implement adopted programs, become more familiar with the ELD standard and learn new strategies to support English learners.

After reviewing all feedback and achievement data, the Escuela Popular team determined to continue working on the previously identified

goals and actions. Some areas have seen significant progress and others still require various next steps. Many of the critical areas for follow-up will continue to be built upon as described in our updated LCAP.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

Aspects of the LCAP that were influenced by specific input from educational partners are as follows:

- Professional Development opportunities and planning time to provide research-based instructional practices
- Strategic intervention support services for students who require academic support
- Additional movement and enrichment opportunities for students
- Dual Enrollment and career and skill-based courses for students to expand their 21st-century skills
- Extended day and year learning opportunities for students
- Consistent outreach and support for students who are truant or experiencing chronic absenteeism
- Academic counseling to plan beyond high school
- Referral process for families that need additional support and outreach
- Continue to build community partnerships to support the needs of our families
- Continued access to technology devices in the classroom
- Purchase of additional technology devices
- Use of Google Classrooms and carefully selected learning platforms and software for the different grade levels
- Goals and objectives are clear and shared with students via Google Classroom platform
- A-G courses were developed and approved strengthening the programs
- Common Teaching Strategies are developed during Professional Development
- Students can track their progress and receive support through Google Classroom
- Students understand the expectations and grading criteria in performance tasks due to shared rubrics
- Technology and resources have enriched teaching and learning for all types of learners
- Set a strategic plan to increase family engagement and collaboration
- Increase knowledge and understanding of Dual Language 80/20 goals and expectations for families and staff

Goals and Actions

Goal

Goal #	Description
1	Increase engagement and retention of students by providing students with a system to understand and track their academic progress toward mastery of learning goals, measured by formative and summative performance-based assessments.

An explanation of why the LEA has developed this goal.

This goal was developed because data continuously showed that students leave school prior to completing their graduation requirements. The team believes that if students and families are provided with a system to understand and track their academic progress toward mastery of their learning goals, they are more likely to be motivated and successfully complete their graduation requirements.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
PowerSchool Information System The ratio of credits earned to credits attempted increases from previous year or reaches target %.	The ratio of credits earned to credits attempted from quarter 1 to quarter 3 increases 3% from the previous year or is higher than the 80% target. Base line is 71%.	The ratio of credits earned by our adult program is 79%.	The ratio of credits earned by our adult program is 60.1%		By 2023-24, the ratio of credits earned to credits attempted from quarter 1 to quarter 3 will be 80% or show a 3% increase from the previous year.
PowerSchool Information System Increase the number of continuously enrolled/long-term students.	Increase the number of continuously enrolled/long-term students from the base year of 23% or demonstrate a 3%	The number of continuously enrolled/long-term students for EPCTC program is 34.1%	The number of continuously enrolled/long-term students for EPCTC program is 45.6%		By 2023-24, the percentage of continuously enrolled/long-term students will be 23% or demonstrate a 3%

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
	from the previous year.				increase from the previous year.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Student Learning Goals	If we review and refine student learning goals in all courses, then students' awareness of learning goals will result in higher student engagement.	\$188,018.60	Yes
1.2	Establishment of Performance Tasks	Identify and establish performance based tasks/project-based learning in courses		Yes

Action #	Title	Description	Total Funds	Contributing
1.3	Establishment of Performance Tasks Rubrics	Design rubrics for selected performance based tasks		Yes
1.4	PD for Performance Tasks	Provide professional development to teachers on administering and assessing performance tasks	\$286,707.90	Yes
1.5	100% Implementation of Performance Rubrics	Implement and monitor use of rubrics for performance tasks for all courses	\$690,650.10	Yes
1.6	Google Classroom Tracking Learning Goals	Implement Google Classroom to house and track selected student learning goals	\$100,000.00	Yes
1.7	PD for Google Classroom Tracking	Provide training to teachers, students, and families on use of Google Classroom for monitoring student progress		Yes
1.8	Google Classroom Tracking System	Monitor the use of Google Classroom by teachers and consistent updates on Google Classroom gradebook	\$3,712.50	Yes

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The school and staff have continued to make progress in reviewing and refining learning goals, creating and identifying performance tasks and rubrics, and implementing summative performance tasks. The instructional team will continue providing ongoing training to ensure all courses include summative performance tasks. The revision and identification of learning objectives will be an ongoing task supported by formative assessments and TLC professional development.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

N/A

An explanation of how effective the specific actions were in making progress toward the goal.

The concentration on alignment and refinement of learning goals, performance tasks/project-based learning and rubrics helped students and families gain a clear understanding of student progress towards mastery of skills. Professional development time was used effectively to give staff sufficient time to plan, monitor and evaluate their progress and alignment.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

N/A

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	Increase student achievement toward meeting 21st Century Skills and College and Career Readiness through aligned and clearly articulated instructional objectives with the appropriate progression relevant to student needs.

An explanation of why the LEA has developed this goal.

This goal was developed because data showed that between 50-60% of EP students did not meet their NWEA Annual Growth Target in reading and mathematics. The team believes that by aligning and clearly articulating the instructional objectives, students and teachers can work together to identify gaps in learning and better leverage the instructional time to support student achievement that is aimed at meeting the 21st Century Skills, College, and Career Readiness. When students and teachers know what their learning goals are and the progression is established across levels, students are more likely to receive instruction that facilitates their learning. In addition, teachers are able to receive feedback on how to improve their lessons.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Survey % of participant in quarterly feedback surveys	68% participation by students and parents in quarterly feedback surveys.	65.1% of students participated on the spring LCAP survey completed on April 22nd, 2022	64% of adult students participated on the spring LCAP survey and gave their feedback. It was completed on April 19, 2023.		By 2023-24, 90% of students and parents will participate in quarterly feedback surveys.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Alignment of curriculum	Evaluate existing curriculum and instructional practices to ensure alignment to English Language Development (ELD), Common Core, Physical Fitness Standards, and Next Generation Science Standards	\$11,305.00	Yes
2.2	Establish Learning Outcomes	Establish student learning outcomes by courses, utilizing assessment platforms and data.		Yes
2.3	College & Career Pathways	Develop College and Career Pathways within the school's curriculum	\$23,397.50	Yes

Action #	Title	Description	Total Funds	Contributing
2.4	Communication of curriculum & assessment	Communicate clearly to all educational partners the school's curriculum and assessment framework	\$3,588.00	Yes
2.5	Refinement of Resources	Select instructional resources for each specific courses and departments	\$9,421.48	Yes
2.6	PD for classified & Certificated staff: tech & assessments	Coordinate and implement professional growth for classified and certificated staff to meet 21st century skills, including integration of technology into instruction		Yes
2.7	PD for new curriculum	Coordinate Professional Development opportunities to support new curriculum frameworks		Yes
2.8	PD for School Leaders and Instructional Staff	Select, develop, and implement professional development for school leaders and instructional staff on use of adopted resources		Yes
2.9	Allocation of resources to successfully implement the curriculum and assessment framework	Human and financial resources are allocated to successfully implement the curriculum and assessment framework	\$25,530.00	Yes
2.10	Additional Academic Support	Teacher Assistants will provide additional academic support to ELD students or students who are not meeting learning outcomes	\$9,617.30	Yes
2.11	Digital Literacy	Offer opportunities for students to develop digital literacy skills		

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The school and staff have made significant progress in reviewing and implementing changes in professional development and alignment in educational resources. Based on data collected and collaboration among departments the school leaders will continue to support teachers with professional development and monitoring progress.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

N/A

An explanation of how effective the specific actions were in making progress toward the goal.

School leadership plans to continue working on the articulated curriculum, formative assessment, and college and career readiness. Instructional leaders will continue to work with staff on alignment of curriculum, refining learning outcomes, providing PD, and additional instructional support.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Changes made were to add action items to support classroom instruction and increase digital literacy instruction.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
3	Provide students and families with the necessary academic and social and emotional resources to support academic achievement and retention.

An explanation of why the LEA has developed this goal.

This goal was developed because data showed that over 90% of students are immigrant students whose primary language is Spanish, and Escuela Popular is their first U.S. school. The team believes that student retention, family engagement, and higher education/career opportunities can increase when students have access to resources to support academic, well-being, and socio-economic needs.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Professional Development Calendar Professional Development Sign-in Sheets Curriculum Framework 100% teachers have an instructional mentor to work with.	All teachers have an assigned mentor. The goal has been to have mentors communicate with their mentees twice a month. New teachers had a higher degree of support, based on their needs, at a minimum met once a week with their mentor. Veteran teachers had a coaching session at a minimum once a month. Access to mentors was readily available as needed	Due to COVID staff shortages have made it a challenge to spend additional time observing and meeting with teachers for planning. After the second quarter the HS instructional leader left on maternity leave.	100% of new teachers or teachers that need extra support have an instructional mentor to work with school-wide.		By 2023-24, All teachers have an assigned instructional leader who will observe, debrief, plan, or provide feedback to their teaching depending on their level of need. Instructional leaders will spend 65% of their time on this task. A tracker will be implemented to track percentage of as reported within monthly self-assessment. Along with a tracker of

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
					teacher/instructor support (tracks meetings, planning, debrief, observations).
Professional Development Calendar Professional Development Sign-in Sheets Curriculum Framework % of instructional leaders will attend professional development sessions offered by the school.	100% of instructional leaders will attend professional development sessions offered by the school.	100% of instructional leaders attended sessions. Due to medical leaves some sessions were excused.	100% of instructional leaders attended professional development sessions offered by the school.		By 2023-24, 100% of instructional leaders will attend and lead professional development sessions offered by the school.
Professional Development Calendar Professional Development Sign-in Sheets Curriculum Framework Aligned school-wide communication process is consistent on a weekly, monthly, and quarterly basis.	Fall of 2019 we started using ParentSquare to be the comprehensive communication platform. ParentSquare is used to communicate with CTC students. The Teacher Weekly Newsletter is shared via email.	A school-wide professional development calendar has been created, implemented, and adjusted as needs arise. Communication is maintained via the teacher newsletter, parentSquare and emails.	A school-wide professional development calendar has been created, implemented, and adjusted as needs arise. Communication is maintained via the teacher newsletter, parentSquare and emails.		By 2023-24, the school will create a consistent monthly school-wide communication via ParentSquare and email, alongside the teacher weekly newsletter shared via email.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Truancy & Student Services	All students who are experiencing truancy, personal needs, or academic concerns will receive a phone call and/or face-to-face contact with the Student Services team and/or Teachers as monitored by the student support team via PowerSchool reports or referrals.	\$40,339.00	Yes
3.2	Annual Parent Conference	Monitor and track number of participants in Escuela Popular's Parent Conference to support parenting students.	\$2,000.00	Yes
3.3	Tracking number of students using childcare services or transportation	The school uses support services, such as a Waldorf-inspired childcare program and transportation, to keep students in school, track students who receive childcare and/or transportation.	\$731,411.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.4	Culturally Responsive PD	Offer professional development of culturally and linguistically relevant instructional practices with an emphasis on immigrant students.		Yes
3.5	Academic Tutoring	Coordinate a sustainable tutoring program to support academics	\$87,636.80	Yes
3.6	Increase outreach and tracking of student services	Increase outreach of programs/resources offered from the Student Resource Advocate Office and Office of Student Services along with tracking system of how many students are supported and in which areas	\$50,366.00	Yes
3.8	Academic Achievement Recognition	Expand recognition of student achievement, including perfect attendance, Honor Roll, Language Development, Lexile growth, etc.		No Yes
3.9	Promoting & tracking of Student Learning Center	Students have access to Student Learning Center and technology along with tracking of number of students visiting learning center and purpose	\$8,715.20	No Yes
3.10	Extracurricular activities	Provide extracurricular activities to support well-being/self-care	\$46,429.00	No Yes
3.11	Monthly Stakeholder communication	Monthly communication with educational partners through ParentSquare, Google Classroom, and website.		No Yes
3.12	Post-secondary projects/timeline	Communicate with staff the projects and timelines used and implemented by the Academic Counseling Department to support post-secondary education	\$3,383.25	No Yes

Action #	Title	Description	Total Funds	Contributing
3.13	A-G course approvals	Obtain A-G course approval for World History, U.S. History, American Government, Economics, Art, Spanish 2, and college preparatory elective	\$31,500.00	No Yes
3.14	Post-secondary connection	Collaborate with local colleges and organizations to provide courses and outreach to students that include Dual Enrollment Courses	\$11,873.70	No Yes

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

There were no substantive differences in the planned actions. A number of A-G courses that needed to be approved have been completed.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

N/A

An explanation of how effective the specific actions were in making progress toward the goal.

Retention of students has increased due to support services offered to families. We have seen an increase in students reaching out to access student services and necessary resources to stay in school.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

This year we formed a partnership with San Jose City College to provide dual enrollment courses to increase access to college and CTE courses.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2023-24]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
1,367,184	243,812

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
24.31%	0.00%	\$0.00	24.31%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

The school is spending all of the additional funds generated through the LCFF school-wide, as our percentage of unduplicated pupils is quite high, 99.6%. All actions and services included in the Local Control Accountability Plan are designed to meet the needs of English learners, foster youth and low-income students. The extra support services we provide (maintaining small class sizes, enrichment instruction provided by additional staff, the availability of high quality professional development, increase in social and student support services, and highly qualified bilingual staff members) for all students are also those that best support our unduplicated students' needs.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

The services provided to English learners, low-income students, and foster youth will increase proportionally due to the increase in funding. The increased percentage is met by all the actions and services included in the Local Control Accountability Plan. As the school primarily serves low-income students and English learners, the allocation of funding school-wide will directly impact the services offered to these groups. The funds we will receive enable us to continue offering an extended school day, hiring high quality teachers, and offer specialized training to our staff to ensure our subgroups are receiving instruction tailored to their needs.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The school will use funds to recruit and train additional staff to provide additional support services to students such as tutoring, Saturday Academy, enrichment activities, and additional course offerings.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		1:30
Staff-to-student ratio of certificated staff providing direct services to students		1:20

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA's eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA's goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022
